

PROJECTS OVERVIEW

About

NADIA'S INITIATIVE

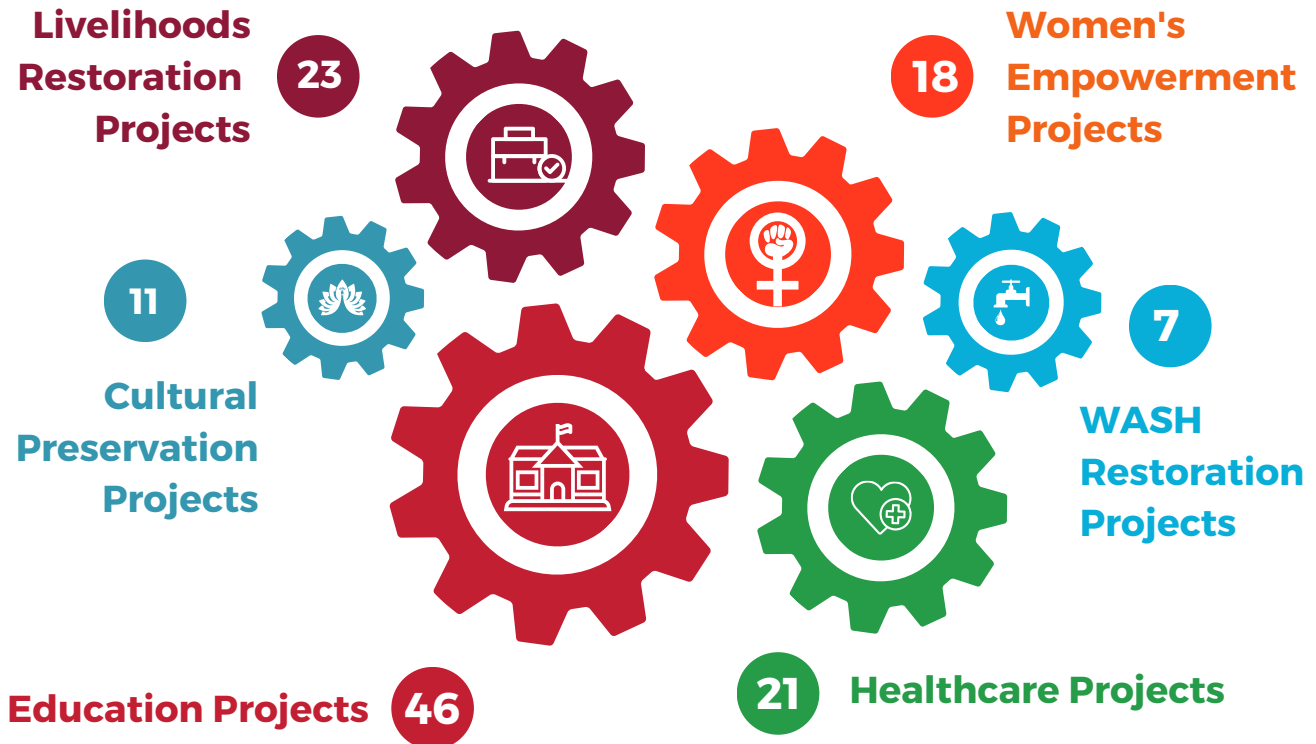

Nadia's Initiative is dedicated to rebuilding communities in crisis and advocating globally for survivors of sexual violence. Nadia's Initiative's current work is focused on the sustainable re-development of the Yazidi homeland in Sinjar, where Nadia Murad grew up. When ISIS launched their genocidal campaign, they not only killed and kidnapped Yazidis, but also destroyed the Yazidi homeland to ensure the community could never return.

Nadia's Initiative works with the local community and a variety of implementing partners on the ground in Sinjar to design and support projects that promote the restoration of education, healthcare, livelihoods, WASH (water, sanitation and hygiene), culture, and women's empowerment in the region. All Nadia's Initiative programs are community-driven and survivor-centric, and work to promote long-term peacebuilding. Nadia's Initiative advocates governments and international organizations to support efforts to rebuild Sinjar, seek justice for Yazidis, improve security in the region, and support survivors of sexual violence worldwide.

Nadia Murad *(Founder, President, and Chairwoman of Nadia's Initiative)*

OUR PROJECTS

Since its founding, Nadia's Initiative has implemented numerous new projects each year. From a modest beginning of 3 projects in 2018, we have now completed or are in the process of implementing 126 projects. With each new project, Nadia's Initiative expands both its capacity and impact on the ground in Sinjar. In 2021, our reach expanded exponentially to nearly 150,000 direct beneficiaries. In 2022, we doubled our impact, directly benefitting almost 300,000. In 2023, we anticipate directly benefitting over 450,000. Despite our increased outreach and impact, the needs in Sinjar remain immense. We at Nadia's Initiative will not rest until all residents of Sinjar are empowered to lead sustainable and dignified lives in their homeland.
